Josie,

I apologize, but circumstances have changed with Dimock where I will not be able to reliably help with the Planning Chief support next week. Of course, things might change, but our best plan now is that we will be rolling out our data and will most likely be on site.

sorry, I really thought I'd be in a different status by this time. Hope you can find someone else at this late notice.

Rich

Rich, all three of you are excused from the Program meeting. With regard to safety meeting, including exercises your excused as needed..... however, I'm assuming like you that we will be doing roll-out of week 2 next week and so we'll need sufficient personnel at Dimock to schedule and deliver packages plus help handle any citizen or media inquiries. Thanks, den.

Subject: Next Week

Den,

I anticipate that we will be rolling out week two data next week at Dimock for sure. We may also be doing home visits for week one. So, I expect that neither Kelley nor I will be able to attend the Program Meeting. In addition, Joanna will be critical to assist us in package compilation. Both Joanna and I have agree to participate in the exercise, but I don't really see any way around not participating at this point. When I agreed, I thought we might be farther along on data roll out. If you have other thoughts, please let me know.

Rich
